MEADE GUNNELL engineering & surveying, p.c.

Statement of Qualifications

Company Profile

MEADE GUNNELL is known for quality solutions and top-industry level performance. We are geographic information systems, civil engineering, and surveying specialists ranked among other top industry leading companies. Our experienced professionals manage multiple aspects of your project from initial research through design, development, and implementation. From start to finish, we maintain the highest grade in client satisfaction by sustaining quality and integrity on every project.

At Meade Gunnell, we have dedicated over a decade in evolving our ideal of what a geographic information systems, civil engineering, and land surveying company should bring to the marketplace. The result is a firm that covers all the bases in what it takes to assure a successful project.

MEADE GUNNELL is a Certified Small Business Enterprise (SBE) and a licensed professional services corporation in North and South Carolina, with professionals also maintaining licensure in Virginia, Maryland, Kentucky, Tennessee, Georgia, and Alabama. MGES is fully insured, and maintains continuous insurance coverage of \$1,000,000 general liability, vehicle, and professional liability insurance. Our Team Members do not have any known conflicts of interest with the proposed projects.
